## THE COLLEGIATE GROUNDS.

The grounds of the new collegiate institute are now among the most beautiful school grounds as a result of the work of Landscape Architect T. R. Morrow. The improvements are now practically completed for this season with the exception of the seven foot board walk and fence around the alley which is to be finished shortly. Bordering the grounds to the north and at each end important ornamental trees have been placed supplemented with native spruce and birch. The grounds have been leveled after much painstaking toil and are now assuming a healthy green tinge with the spreading of the lawn grasses. Nicely arranged flower beds placed along the cement walks in front of the building and near the end entrance are well filled with petunias, nasturtiums and other rich leaved flowering plants, and the effect produced is worthy any person's time for an inspection stroll past the building.

## LAWN SOCIAL LAST NIGHT.

The ladies of Metropolitan Methodist church held a lawn social last night on the beautiful grounds of Dr. Craig adjoining the church. The

grounds were beautifully decorated with strings of incandescence lights, excellent music was furnished by the fire brigade band. During the night having become windy the gathering broke up earlier than it would otherwise have done. A good storm was realized to go towards the work of the ladies of the church.

## WILL PAVE THIS YEAR.

The public works committee of the city council have decided to carry out the action of the city engineer, A. J. McLean, advising that the paving of Whiting avenue be delayed until next year, and work will be begun before the end of the month. The engineer at last Tuesday night's meeting of the council pointed out that it would not be advisable to follow paying too closely after the laying of the water and sewer trenches. Alameda, however, pointed out that since being done in Edmonton this season and on the question was referred to the public works committee.

## LOCALS

Superintendent A. Brownlee of the C. P. R., who is temporarily replacing A. Price, who is on his holiday, in the Okanagan, was in the city this week on an inspection trip. Miss Van Camp, who for six years was engaged as a missionary in South Africa, will be the speaker at Bethel Mission on Sunday.

J. W. Graydon whose homestead near the G. T. P. right of way east of the city, was partially destroyed by prairie fires this spring has returned to the city and resumed his position in Crawford & Weeks' store.

The St. Louis hotel is being much improved by a new east end paint. Mrs. C. F. Mason, who has been bookkeeper at A. H. Richardson's store, has been compelled to resign her position because of ill health.

The work of making the remaining connections along the south side of Whyte avenue between Main and First street east, has been completed and the laborers are now working west of Main.

The Strathcona fire brigade band will give the second of their concerts on the new band stand tonight if the weather is favorable. The concert in Twelfth street was greatly appreciated by the general public.

Don Bisset, who has been attending McMaster university, has arrived home to spend the remainder of his holiday with his parents here.

Mrs. W. D. Caruandden and Miss Nina Caruandden have gone to Vancouver where they will visit during the summer months.

Urb. Urquhart, of the Imperial bank, has returned after a holiday spent in Winnipeg.

## WINNIPEG REVIEW.

Winnipeg, July 16.—On the unexpected higher Liverpool cables there has been a keen demand for wheat today. All exporters apparently had buying orders for Canadian wheat under \$1.10, and there were very many sales made over that figure. On this demand all offerings were quickly absorbed and it did not take much ammunition on the part of the bulls to boost prices to the \$1.11 mark.

Towards the close of the session there was a little profit taking by scattered holders which caused a slight reaction of 1/4. The Western Canadian wheat market was quiet and moderate to warm, except in Southwestern Alberta, where the temperature rose to 85. Scattered showers and storms were reported, but on the whole it was fine and clear on the prairie. The United States was there was also mainly favorable during the past 24 hours. Fifty cars were reported for inspection.

## CHICAGO LIVE STOCK.

Chicago, Ill., July 16.—Hogs achieved a top of 85.40 today, and generally there was an advance of 10 to 20c, practically nothing of recent quality sold below \$3.00. It was the highest market since the war. Top hogs have sold at more hefty attitudes, but common and mixed stuff never. So scarce are good hogs that they are being sold at 10c to 15c in the truck. Supply at the principal western markets this week shows a decrease of 100,000 compared with last week. The advance in a week in the cattle trade was equally noticeable, practically nothing being on the market. At a decline of 25c to 30c the week, lamb trade appeared to have struck the bottom. The best prices in western lands were 85.25 and on native \$5.00. Sheep were strong to a 50c to 75c advance for the week.

Hog—Receipts, 1,000; 5 to 10c higher. Mixed and butchers, 7.50 to 8.50; good heavy 7.25 to 8.40; rough heavy, 7.50 to 7.75; light, 7.70 to 8.15; pigs, 4.50 to 5.00; bulk, 7.00 to 8.00.

Cattle—Receipts, 1,200; mostly heavy, 5.25 to 7.25; cows and heifers, 2.40 to 6.50; stockers and feeders, 3.10 to 5.10; Texan, 4.50 to 6.10; calves, 6.25 to 8.75.

Sheep—Receipts, 5,000; weak. Native and western, 2.00 to 4.50; lambs, 5.00 to 8.50.

## THE CATTLE SITUATION.

Saturday, July 17.—Farmers throughout the Edmonton district will be turning their attention to laying the first week of the crop this season does not give the appearance of being more than average, and the average cool weather in the month of May, timely in rather short in the spring and does not give as heavy a stand as the general rule of the last season. New hay has been offered regularly in the market for the past two weeks and prices have fringed a low level. Several loads were offered today at 85 per load, and owing to the light demand for the large quantities offered, almost any price has been accepted for hay by the lot. The quotations, however, do not vary much from last week.

With the splendid growing weather of the past few weeks the grain crop has come along very satisfactorily. Several fields of fall wheat in the Clover Bar district and in the vicinity of Stony Plain will be ready for cutting by the first week in August. Judging from reports heard from time to time, the wheat has been sown under almost ideal conditions for a very creditable yield.

It is well that the oat crop is so extensive this year as the demand will be large for the maintenance of the railway construction camps away to the west and east of Edmonton. Oat quotations are now 10c to 15c in Edmonton, but G.T.P. railway

## RED COATS ENGAGE IN MIMIC WARFARE

Colonel Edwards, With Six Companies  
of the 101st Regiment, Captures  
Old Fort on Saskatchewan Bank  
From Valiant Force of Defenders  
Under Captain McLeod.

In all its lifetime, the Old Fort on the bank of the Saskatchewan, never besieged as it was last night between nine and ten o'clock. Six companies of the 101st Regiment advanced upon it in line of skirmishers, in successive ranks, pouring in so strong a fire that the defenders, under Captain McLeod, were compelled to relinquish their stronghold.

Fort citizens were aware of the battle which was being waged below the city. The sound of firing was heard by many, who put it down for an exceptionally well attended school of the Edmonton Gun Club. But no, it was a most realistic representation of attack and defence by seven companies of red coats of the 101st Regiment, which took the form of a sham battle. The movements of the forces were executed as they would be on the field of battle and many were the driving details of the Edmonton volunteers when under fire. We will give the story of the battle in detail.

### Story of the Battle.

Shortly after eight o'clock the regiment, headed by the newly formed bugle band, and each man well equipped with ammunition, marched in two columns, one on the left and the other on the right, and marched in column of sections down the street to the left by the Exhibition Grounds. The seventh company, the main body of the regiment, marching westward under command of Captain McLeod, and the eighth was to form the defence and took up a position to the west of the main body. The company was divided into several sections, representing supporting troops, and the men and took up defensive positions. Meanwhile the attacking force, under command of Colonel Edwards, was drawn up in the line of the fair grounds. The officers were called out and received commands from their chief, while the men were resting in preparation for the fray.

On the order being given to advance upon the enemy, the captains moved columns at thirty paces and columns at intervals. Nos. 1, 2, 3 and 4 companies were in the first line and 5 and 6 and 7 and 8 and 9 and 10 and 11 and 12 and 13 and 14 and 15 and 16 and 17 and 18 and 19 and 20 and 21 and 22 and 23 and 24 and 25 and 26 Water Pan  
Correctly Placed

The Feed Door of a No. 10 Sunshine Furnace is 12 x 18 inches. This means that the largest animal can safely be crowded into the smallest area, and that good-sized chunks of wood can be thrown in to be used as fuel.

To keep the correct humidity for sanitary purposes, we place the water pan in the furnace.

**SUNSHINE FURNACE**  
right over the main door, a place where the heat and the householder can reach it. So in Sunshine Furnace the water never gets stagnant, and the householder never complains about the awkwardness of pouring the water in.

Automatic Gas Damper allows furnace to be checked shortly after cooling. This saves fuel and protects plants in rooms above.

To make "Sunshine" the easiest-to-be-cleaned furnace, we construct two fuel doors, and place same not only at an equal distance from each other, but at an equal distance from the large feed door.

Ordinary soot-collecting around the radiator without inconvenience; and, what is more important still, can do this without having to get out the fire or take down the smudge-pot.

Causes of Urrat in Waziristan—  
Outbreak Boydages.

Banna, July 6.—Our interest on the north-west frontier of India, has been concentrated chiefly upon the Waziri border, where there is considerable unrest. The raiding parties, consisting of bands of desperadoes, are active in the border, and are causing considerable trouble to the British authorities.

Two months ago an exciting incident occurred about forty miles north of Banna in the village of Tobi Khwa, and Tori. A party of ten outlaws, most of whom were Khattaks, entered the Tori district, apparently with the intention of carrying out a daring raid upon Kalabagh.

The raid was successfully carried out, and the outlaws were able to escape. The British authorities are now trying to track them down.

The steady influx of rifles and ammunition into the Pathan hills by way of Peshawar and Afghanistan, causing considerable anxiety and comment in this part of the world, is a fact which is well known to the British authorities.

The British authorities are now trying to track down the outlaws, and are making considerable efforts to do so.

**Waziristan Farmer Sidelined.**

Waziristan, July 14.—John W. Griffiths, a farmer, who lives a short distance from this town, committed suicide last evening by cutting his throat with a razor.

He had been ill for some time, and had grown very depressed.

Griffiths was a well-known farmer, and was much respected in the community.

His death is a great loss to the community, and his family is now in a state of mourning.
